Questions to Consider

1. Why do you do what you do? Professionally? Personally? (Really – why?)
2. What do you want do? Now? In 5 years? In 10 years?
3. Teaching: What courses do you teach and why?
4. Scholarship: Why do you focus on your area of scholarship? Is your research agenda really yours?
5. Service: What role can/does this play in your teaching and scholarship?

Thoughts on Seeking Balance

1. Be honest with yourself.
2. Give yourself a break.
3. Notice the wind.
