WHY ATTEND?

The avenues that lead to a career as a law teacher are changing. An increasing number of today’s new teachers enter the profession with scholarship: a first article already written and a scholarly network already underway. The groundwork is set for these new faculty members to take on multiple roles as teachers, scholars, mentors, and institutional citizens.

At the same time, law schools are facing unprecedented challenges brought about by the nationwide downturn in student applications, as well as other changes and transformations. New law teachers, including those joining law school faculties as tenure-track, lecturer, clinical, or visiting appointees, need to understand these challenges to succeed in their careers.

At this workshop, participants will be able to share their experiences and concerns both with each other and with a roster of inspirational scholars and teachers chosen for their commitment to legal education, the distinction they have achieved in their own careers, and the diversity of their scholarly and pedagogical approaches.

These speakers will pass along valuable advice about developing, placing, and promoting one’s scholarship as well as tips and techniques for successful student engagement and assessment. They will also address the often-competing demands of institutional service and the evolving expectations of law students and faculty colleagues.

There is something truly special about an event that draws together new law faculty from around the country. We look forward to welcoming new faculty members as they settle into this phase of their legal career.

SCHEDULE

The workshop will begin on Thursday, June 22 with registration at 4 pm and small group discussions at 6 pm. An opening dinner will be held at 7:30 pm featuring a keynote address by AALS Immediate Past President Kellye Y. Testy, dean of the University of Washington School of Law. Dinner will be followed by a dessert and coffee reception. The workshop program includes two and a half days of plenary sessions, concurrent sessions and small group discussions. The workshop will conclude by 4 pm on Saturday, June 24. In addition to the program sessions, there will be luncheons on Friday and Saturday and a reception on Friday evening.

WHO SHOULD ATTEND?

The workshop will benefit those within their first one to three years of teaching in law school, whether they are on tenure track, contract, or are visiting assistant professors.

In addition to producing influential scholarship and facilitating effective student learning, law professors are also expected to build and manage multiple institutional relationships—both formal and informal—with students, staff, faculty, university officials, community members, alumni, and other practicing lawyers and judges. New law teachers are increasingly called upon to interact with these groups very soon after joining a faculty. Such interactions can present exciting opportunities, but balancing the competing demands on one's time can be difficult.

All law teachers have to think about ways to teach, mentor, and collaborate effectively in a diverse community. This session will discuss the special challenges diverse faculty members sometimes face in their roles of teacher, mentor and institutional citizen. It will also address the responsibility that all faculty members have to promote the meaningful inclusion of all students and discuss strategies for doing so both within and outside the classroom.

  Michael H. Schwartz, University of Arkansas at Little Rock, William H. Bowen School of Law

Effective teachers understand that what learners bring to the classroom is just as important as what the teachers bring. This plenary session will connect the current academic research on student learning with the teaching strategies that were modeled during earlier sessions. Awareness of this research can help teachers to promote a positive classroom experience.

9:30 – 10:30 am
Plenary Session: Teaching Techniques
  Gerry W. Beyer, Texas Tech University School of Law
  Howard E. Katz, Duquesne University School of Law
  Susan S. Kuo, University of South Carolina School of Law

Effective teachers often use a variety of teaching methods to maximize student engagement and learning. In this session, panelists will identify some of the teaching methods they use and discuss how these methods apply to a variety of learning environments, such as large and small classes, podium courses, and clinics.

3 – 4 pm
Plenary Session: Navigating Tenure, Long-Term Contracts, and the Road Ahead
  Craig M. Boise, Syracuse University College of Law
  Nancy J. Soonpaa, Texas Tech University School of Law
  Moderator: D. Gordon Smith, Brigham Young University, J. Reuben Clark Law School

While this workshop has focused on the traditional three requirements of service, scholarship, and teaching, the reality at many schools involves navigating complex institutional history, faculty personalities, and hidden agendas.
